

Product data sheet

Parquet cleaner

Item no. 1101 0989

Product features

Bauwerk Parquet Cleaner is a concentrated cleaning product intended for dilution in mopping water and cleaning of oiled and lacquered parquet. The product has a grease and dirt-dissolving effect, is easy to use and should be used sparingly.

Working with the product

- Perform a dry cleaning of the floor with a vacuum cleaner or dust cloth to remove loose dirt.
- For the subsequent damp cleaning, prepare a mopping mixture by mixing 50–100 ml of Bauwerk Parquet Cleaner per 5 litres of water
- Use a mopping device (such as the Bona mop, item no. 1001 8936) to damp-clean the parquet surface
- On larger areas, a single-disk machine with a spraying device and a polishing pad can be used for damp-cleaning with Bauwerk Parquet Cleaner
- Bauwerk Parquet Cleaner is not a polish remover, i.e. any layers of previously applied polish will not be dissolved and will remain in place
- After cleaning with Bauwerk Parquet Cleaner, the floor can be treated in accordance with the care instructions

Storage

- May be stored for at least 2 years in well-sealed original packaging
- Do not store at temperatures under 5 °C
- Keep away from children

Technical data: Greenish liquid with a pH value of approx. 10 (approx. 8 when diluted)

Water hazard class: WHC 2: water hazardous

Waste code: 20 01 30
