

Product data sheet

Mop care

Item no. 1101 0994

Product features

Cleaning and care concentrate with a base of natural jojoba oil. Intended to be added to mopping water. For regularly maintaining oiled parquet by Bauwerk. Suited especially for parquet floors that are not intensively used.

Working with the product

- Remove loose soiling from the parquet surface.
- In case of severe soiling, mop with Bauwerk Parquet Cleaner first
- Add 1% of Bauwerk Mop Care to the mopping water (50 ml per 5 litres of water) and mix well
- Moisten the fibre cloth of your mop (e.g. Bauwerk Cleaning Mop) with the mopping water mix, wring it out and damp-clean the floor
- Do not apply too much moisture to prevent the parquet elements from swelling
- Once the drying time (approx. one hour) has passed, the floor will gain an evenly matt, protective film
- Depending on the intensity of use and wear, such mop care should be performed at intervals of days or weeks

Attention

Bauwerk Care Oil Eco is recommended for advanced intensive care.

Storage

- May be stored for at least 1 year in well-sealed original packaging
- Keep away from children
- Do not store at temperatures under 5 °C

Technical data:

- Dosage: Add 1% to the mopping water (50 ml per 5 litres of water)
- Dries in approx. 1 hour.

Ingredients

- 10% anionic surfactants
- <5% non-ionic surfactants
- Orange terpene
- Jojoba oil

Water hazard class: WHC 1: low water hazard

Waste code: 08 01 16
