

Product data sheet

Parquet care Eco

Item no. 10023187

Product features

Parquet Care Eco is an aqueous initial treatment and care product for silk-matt, matt parquet floors and those with B-Protect® lacquering. The film the product creates reduces wear and protects the joints.

Working with the product

- Clean the parquet floor (vacuum clean, etc.)
- Shake Parquet Care Eco well before use
- Parquet Care Eco is used undiluted
- Using a cleaning mop with a thin, short-pile flat damp-clean the parquet floor evenly. Remove any excess with a lint-free cotton cloth
- To avoid the wood swelling, do not use too much moisture and make sure that there are no puddles
- Dries in approx. 1 hour. Do not walk on the surface during this time
- The devices and cloths used can be washed with water and reused

Storage

- May be stored for at least 1 year in well-sealed original packaging
- Do not store at temperatures under 5 °C
- Keep away from children
- Protect from frost

Technical data

- Consumption: 100 m²/litre
- Drying time: approx. 1 hour

Cleaning of working tools: Clean the tools with water immediately after use.

Water hazard class: WHC 1: low water hazard

Risk statements and safety recommendations as per the Hazardous Substances Ordinance (GefStoffV)/ Chemicals Ordinance (ChemV)

- No hazardous ingredients as per Regulation (EC) No 1907/2006

Waste code: 08 02 99
